*Public Works – Contractor's Request for Payment #1 to Molitor Excavating in the Amount of \$109,720.25:* Mayor Dillan called for a motion to approve. Motion by Johnson, seconded by Muller. No

further discussion. All in favor. Contractor's Request for Payment #1 to Molitor Excavating in the Amount of \$109,720.25 passes.

Public Works – Preparation of Feasibility Report for Future Municipal Utilities for Siemers Family Property (#21-000-3010): Mayor Dillan called for a motion to approve. Motion by Poorker, seconded by Muller. Mayor Dillan stated this is to look at the property north of Hwy. 23. Johnson asked if this would be done when Hwy. 23 is done and Pfaff stated yes. He then asked if this would be assessed onto the property owners and Pfaff stated yes. Poorker asked what the cost of the feasibility study would be and Pfaff stated she did not know but that cost would also be assessed to the property owner so all costs would be recouped. The Siemers family wanted a more accurate cost so a feasibility report would need to be done to get that estimate. No further discussion. All in favor of Preparation of Feasibility Report for Future Municipal Utilities for Siemers Family Property (#21-000-3010) passes.

Public Works - Feasibility Report for Rum River Cooperative School: Mayor Dillan called for a motion to approve. Motion by Johnson, seconded by Muller. Mayor Dillan stated this is for water and sewer to go to their property. Pfaff stated correct and that this would also be assessed. Johnson asked if this would be coming across County Road 2 in the construction zone and Pfaff stated no that it will come off of 5<sup>th</sup> Street by the dental clinic there. Per Pfaff, during a meeting with MN DOT, there was some discussion if the sidewalk could be extended to the school coming off of Hwy. 23 but MN DOT did not want to do that. No further discussion. All in favor of the Feasibility Report for Rum River Cooperative School passes.

*Fire Department* – Fire Chief Gerads was present and stated the fire department is looking at a 2008 rescue truck that is up for auction from the City of Excelsior. The current rescue truck is a 1993 (32 years old). Gerads further explained that they don't have the money in reserves but they should in a year as they donate roughly \$100,000-\$150,000 a year to the city from our gambling relief fund. It has a bunch of equipment that they are not going to use since they are discontinuing the use of a rescue truck and thinking it could sell for around \$125,000 to \$250,000. A new one like this would cost around \$900,000 with no equipment. We will be selling old Engine 2 which is coming up next month for about \$20,000 and then we would sell the rescue truck that we have for about \$20,000. We did the same thing with our engine and paid that off in 7 months? Pfaff stated there was \$34,000 in the reserve fund. Pfaff stated the only problem is that it puts us in a cash flow problem if the money isn't there in reserve so then I have to cash out a CD. Johnson asked if the fire department would also reimburse the city the interest that we would lose and Pfaff stated yes, we would add that in to the reimbursement cost. Johnson stated then that would be a wash for the city. Poorker asked what happens if we wait a year and Gerads stated that truck would not be there as it is an online auction. Poorker then asked how concerned are you if we don't do this? Gerads replied it's not like the truck is falling apart or anything but the fire trucks that we have are older than any city vehicle.

(Damien arrived at 6:21 p.m.)

Pfaff stated the auction closes on the 25<sup>th</sup> and further stated that there is a possibility that they could do a community facilities note for the truck rather than cashing out a CD. Interest rate would be about the same. Johnson asked if we had any CD's coming due and Pfaff stated no that they would get penalized for early withdrawal. Johnson stated that it sounds like a pretty good opportunity. He further stated that they have spent a lot of money lately but if it could be a wash for the city, it would be a good thing. Pfaff asked if the council wanted her to try to get the community facilities note and they agreed to have her apply for that. Johnson said he would agree to this as long as there was no cost to the city in regard to interest or penalties. Gerads stated he knows what the reserve is and Pfaff asked if it was higher than the fire department reserve funds and Gerads stated oh yeah. It's going to be \$125,000 to \$150,000. Johnson asked if there would be any other purchase that they would be considering in the future and Gerads stated

they should be pretty good now. Johnson asked if they would be good for 10-12 years now and Gerads stated probably 6-10 years.

Mayor Dillan asked if everyone was good on Johnson's thought on the loan program, fallback on CD's if we had to? Johnson then stated as long as there was no cost to the city. Mayor Dillan called for a motion to approve the fire department to put a bid on the 2008 rescue truck. Motion by Johnson, seconded by Larsen. Muller asked if he needed a decision on this tonight and Gerads stated the auction is the 25<sup>th</sup>. No further discussion. All in favor. Motion passes.
